SUBJECT Construction of Underground Installations in Avala

NO. OF PAGES 1

PLACE 25X1A

ACQUIRED
DATE OF INFO.

ROUTED TO CIA LIBRARY

NO. OF ENCLS.
(LISTED BELOW)

SUPPLEMENT TO
REPORT NO.

25X1X

1. Underground objectives of an undetermined nature are being constructed at the foot of Avala, alongside the Belgrade-Avala highway. Three entrances, located close to the highway and camouflaged with rocks, lead to the objectives.
2. By the end of 1949, only construction of the underground objective leading from entrance No.3 was completed and the necessary equipment installed. No electrical or other equipment has yet been installed in the other two objectives. Objectives 1 and 2 so far have not been connected with objective 3, and it is not known whether tunnels will connect them or not.
3. Only soldiers are used in construction work, as also at Ripanj where a radio station is currently being constructed. Engineer Major Spoj, a Slovene, is in charge of construction both in Avala and in Ripanj.

25X1A

Comment: A plan of the area and installations is available upon request.
